## SUES LOCAL CONCERN FOR INFRINGEMENT.

(Special to the Times.)

Boston, August 13.—The General Seafoods Corporation of Gloucester has been named defendant in a bill in equity filed against it in the U. S. district court here by Paul W. Peterson of Glen View, Illinois, who charges infringement on his patent of a new and useful improvement on method and apparatus for handling comestibles.

The plaintiff states that on July 11, 1922, he was granted a patent giving him the right for 17 years to make, use and vend his invention throughout the United States and its territories and that he has invested large sums of money for said inven-

tion of which he was the original and sole inventor.

The plaintiff in the prayer of the bill of complaint asks that the corporation, its agents, employees and officers, etc., be temporarily during the pendency of the suit and afterwards permanently and perpetually enjoined and restrained from manufacturing or selling or offering for sale the invention.

The plaintiff asks that the corporation be compelled to account for and pay over to him all gains and profits which it made or shall have received from said infringement and that the court in rendering a decree assess or caused to be assessed in regard to the gains and profits to be accounted for the damages which he has sustained by reason of said infringement, and that court may increase the actual damages to three times the amount.
